

Signing into VMWare View on a chromebook

Step 1: Follow the steps to sign into a chromebook.

Step 2: If this is the first time signing into the chromebook, it might take a few minutes for the VMWare View App to download. When it has finished downloading, it will show up in the task bar.

Step 3: Once the VMWare Horizon View App has loaded you will see it on the task bar. Open it.

Step 4: The Horizon View app might ask for a server name. Type “view.csh.k12.ny.us”

Step 5: Use your CSH username and password to log in.

Step 6: Select your desktop.

Tip: Use the “fullscreen” hotkey to go in and out of fullscreen.
