

Cold Spring Harbor H.S.

2018 Science Research Symposium

*Please join us on Wednesday, May 30th at 7pm
in the Junior High Library*

Keynote Speaker & Student Presentations

Lindsay Barone, PhD, Cold Spring Harbor Laboratories DNA Learning Center Program Evaluator -
"What They Leave Behind: Legacies of Ancient Humans in Modern Populations"

Caroline Ambriano, "Effect of the Dunce Mutation in Drosophila on Short-Term Memory"

Thomas Carey, "Inside a Mouse's Head: What Algorithm Drives Reinforced Learning?"

Alexandra Gray, "Regulation of Adenocarcinoma-in-situ Carcinoma by HTR2B and Estrogen"

Thomas McGee, "The Effects of Optogenetic Stimulation of Basolateral Amygdala Terminals in The Dorsolateral Striatum and Its Implications for Obsessive-Compulsive Disorder in Mice"

Poster Presentations including all students in our research program will then take place in the Senior High Library

Refreshments will be served.
