

The Friday Notes

Celebrating 225 years!
October 10, 2014

Principal's Corner

This week, I kicked off my "Lunch with the Principal" meetings with second graders in Ms. Ryan's class. Together we brainstormed ways to improve our school. One student suggested by simply being nicer to one another, we can make our school a better place. I could not agree more. During writer's workshop, second graders used a student checklist to help edit their writing pieces more independently. They capped the week off with a field trip to Schmitt Family Farm. Third graders edited their writing by reviewing their story boards. They added detail, dialogue, thinking, and action to enhance their drafts. Some third graders also participated in a read aloud called *Voices in the Park*. Fourth graders used a realistic fiction story map to assist in the drafting process. One student I met with said it helped him to be more organized. Some fourth graders listened to a read aloud called *Pecan Pie Baby*, a mentor text, that modeled how to be more descriptive (show, don't tell) with their writing. Fifth graders created PowerPoint presentations about the different wonders of the Western Hemisphere. They also learned how to divide with two digit divisors using an area model. Sixth graders participated in a lab led by a scientist from the DNA Learning Center. On Friday they paired up with lab partners to explore the mass of liquid. Photo Day took place on Thursday. Thank you to Mrs. Ginobbi and our PTG volunteers who helped make this day run so smoothly.

Enjoy the long weekend!

***Brainstorm: The Power and Purpose of the Teenage Brain* by Daniel J. Siegel, M.D.**

In *Brainstorm*, Siegel explains how brain development impacts teenagers' behavior and relationships. Drawing on important new research in the field of interpersonal neurobiology, he explores novel ways in which understanding how the teenage brain functions can help parents make what is in fact an incredibly positive period of growth, change, and experimentation in their children's lives less lonely and distressing on both sides of the generational divide.

TOWNWIDE Operation E.D.I.T.H. Drill

1. Feel the door to check if it's HOT!
If it's Not Hot open the door slowly,
bracing it with your knees and
shoulder. But be prepared to slam it
shut quickly if there's smoke and fire
on the other side.

2. If the door is blocked by smoke
or fire, leave through a window
or secondary emergency route.

3. Once out of the house go
directly to your meeting place,
such as a tree or mailbox on
your front lawn.

Knowing How To React In A Fire Could Save Your Life, Or The Lives of your Children

the Town of Huntington Office of the
Fire Marshal and in conjunction with
your local Volunteer Fire Departments.

SMOKE DETECTORS

Most fatal residential fires occur while the occupants are asleep. Installing smoke detectors outside bedroom areas will provide the extra minutes of warning needed to escape. The most recent figures available from the National Fire Incident Reporting System indicates that the installation of a Smoke Detector will double your chance of survival during a fire.

DEVELOPING THE PLAN

Members of the family should work together to draw a plan of each floor of your house where bedrooms are located.

Your plan should include:

- The location of Smoke Detectors.
- Two escape routes; one for normal and one for Emergency use.
- All doors, windows, stairways, fire escapes and adjacent buildings.
- A central meeting place outside your home.

If a window is designated as an Emergency Route, make sure the person who uses it is able to reach and unlock the window, remove the screen and / or the storm window, reach the ground safely.

Designate someone to call the fire department from a neighbor's house. Post a copy of your finished plan in a conspicuous place as a constant reminder.

PRACTICE YOUR PLAN ON A MONTHLY BASIS AND REMEMBER THESE IMPORTANT HINTS:

- Sleeping with bedroom doors closed can add valuable minutes of protection against flame, smoke and toxic gases.
- If you have a telephone in your room, have the Fire Department's number on it or nearby.
- Keeping a whistle, horn, or other such audible signal near your bed may prove valuable in waking other members of your family who may not hear the smoke detector. If family members use a different signal you will know who is awake without opening doors.

**MAKE
OPERATION E.D.I.T.H.
A MEMBER OF YOUR FAMILY!**

PUTTING THE PLAN INTO ACTION

If the smoke detector sounds or you smell smoke, wake your family with your signal. If you hear another signal answer with yours. Keep Calm. Roll out of bed and crawl to the door. Feel the door from bottom to top. If it is hot near the top do not open it. Proceed to your designated emergency exit.

If the top of the door is not hot, brace your foot and shoulder against it and open it carefully. If there is only light smoke, crawl to the normal exit. If the smoke is dense or the door is hot use the Emergency Exit. Report to the designated meeting place.

Notify the Fire Department from a neighbor's house. **DO NOT ALLOW ANYONE TO RE-ENTER THE BUILDING FOR ANY REASON.**
